**Sari-Sari Xchange**  
**Mini-Symposium**  
November 17th, 2023

The Sari-Sari Xchange is a project that seeks to amplify Asian representation in the creative emerging media industries in Canada, particularly through a community-building residency program that engages artists with digital and extended reality, 360 cinema, game-engine animation and 3D scanning.

The artists-in-residence, mentors and creative research team will present a mini-symposium in the morning around issues and accessibility of XR technology, and a public exhibition of works-in-progress will follow in the afternoon.

These works will also be presented in a bespoke virtual exhibition space created in Mozilla Hubs. Join us to find out more about the project!
